

**BLACK COUNTRY GRAVESTONES
PHOTOS DATABASE**

UPDATE EDITION
(OCTOBER 2010)

The following database contains information taken from gravestones that we have photographed in the Black Country.

A number of the gravestones are difficult to read but we have tried to make the information as accurate as possible. Where it is impossible to read certain numbers and letters that have been eroded by time and the weather, or where parts of the stones are hidden you will see that “????” has been entered.

If anyone notices any errors or is able to correct any of the entries please get in touch and let us know.

The database is an ongoing project and information is available at the following websites:

www.blackcountrychurchyards.co.uk

www.blackcountrychurchyards.com

www.blackcountrycemeteries.co.uk
